

eONE & eONEB SERIES

The new range of Etatron DS Dosing Pumps, the eOne series, makes an important breakthrough in the market.

Main Features (except for eOne "BASIC"):

1. "clever" control of power depending on the effective dosing conditions
 - a. Flow rate control depending on pressure variation of the installation
 - b. Energy saving
 - c. Low heating of the device
 - d. Low wear of mechanical and electrical components
2. High injection frequency (up to 300 pulses/min)
3. Multitension power supply, 100...250Vac (50/60Hz)
4. **UNDERLOAD** function – suction alarm, for low (end) chemical level, blocking suction valve or damaged suction tube
5. **OVERLOAD** function – dosing alarm, for over pressure inside the pump head, for excessiv operating pressure inside the dosing pipeline, for blocking delivery valve...
6. Diaphragm: PTFE
7. External casing: Reinforced PP and chemical resistant.
8. Pump head made of PP, polymer highly resistant, with ceramic ball valves, with all sealings in FPM, which is a new elastomer compatible with a wide variety of chemicals

Basic

“Analogue electromagnetic dosing pump with constant flow”

General Features

- Manual flow rate adjustment by a knob
- Dual scale adjustment: 0 – 20% and 0 – 100%.
- Proportional mode 1:1 by water-meter pulse-sender signal
- Manual air bleed pump head
- Level probe input
- Flow rate: from 2 to 5 l/h
- Maximum pressure: up to 7 bar
- Stroke rate: up to 180 impulses/min

MA

“Analogue electromagnetic dosing pump with constant flow”

General Features

- Flow rate control depending on pressure variation of the installation
- Energy saving
- Low heating of the device
- Low wear of mechanical and electrical components
- Manual flow rate adjustment by a knob
- Dual scale adjustment: 0 – 20% and 0 – 100%.
- Proportional mode 1:1 by water-meter pulse-sender signal
- Manual air bleed pump head, except for the models 2007 and 3005.
- Level probe input
- Flow rate: from 1 to 30 l/h
- Maximum pressure: up to 20 bar
- Stroke rate: from 180 to 300 impulses/min

MF

“Multifunction Microprocessor Solenoid Dosing Pump”

eOne MF is an electronic dosing pump with a “CLEVER” control of power, depending on the effective dosing conditions

General Features

- Manual air bleed pump head, except for the models 2007 and 3005.
- Manual flow rate regulation 0÷100%, 0÷300 impulses/min
- Proportional dosing modes (1 x n; 1 : n; 1 x n M; ml x I; L x I; ml x m3; PPM)
- Flow rate control depending on pressure variation of the installation
- Energy saving
- Low heating of the device
- Low wear of mechanical and electrical components
- Daily and weekly timer (16 programmes/day)
- Relay output
- 4-20 mA control
- Flow sensor input
- Stroke rate: from 180 to 300 impulses/min

Plus

“Multi-function Microprocessor Solenoid Dosing Pump With pH, Rx or Cl (ppm) and proportional control”

eOne PLUS is an electronic dosing pump with a “CLEVER” control of power, depending on the effective dosing conditions

General Features

- Flow rate control depending from pressure variation of the installation
- Energy saving
- Low heating of the device
- Low wear of mechanical and electrical components
- High injection frequency up to 300 pulses/min
- Manual flow rate regulation 0÷100%, 0÷300 impulses/min
- Maximum pressure: up to 20 bar
- Manual air bleed pump head, except for the models 2007 and 3005.
- Flow rate: from 1 to 30 l/h
- Stroke rate: from 180 to 300 impulses/min
- Proportional dosing modes (1 x n; 1 : n; 1 x n M; ml x I; L x I; ml x m3; PPM)
- Meausure ranges: 0.00– 14.00 pH; -1000 /+1400 mV Redox; 0÷2, 0÷10, 0÷20, 0÷200 ppm
- Daily and weekly timer (16 programmes/day)
- Relay output
- ON/OFF mode or proportional mode
- DIRECT or REVERSE intervention
- PT100 temperature probe input
- 4-20 mA control
- Flow sensor input
- Hysteresis
- Level probe input

PP-FPM kit
1-15 L

ALL eOne are supplied with a standard PP-FPM installation kit, made up of 2m discharge PE tube (4x6mm), 2m suction + 2m bleeding PVC crystal tube (4x6mm), PP foot-filter, PP injection valve. Other configurations are available upon request.
